LENROOT CHARGES RAIL CONFERENCE MISLEADING MOVE

OBITUARY

George Wendham, Mr. Atkinson, F. L. Atkinson—George Wendham, 33, died at his home on the Hobron road, Tuesday morning. He leaves four sons, Harry, Milton, Junction, Clarence, and Hubert, at home; and one daughter, Mrs. Frank Fields, Otter Creek. His funeral will be held Thursday at 1:30 p.m. at the home with burial at White-water.

(By Associated Press) — The purpose of those promoting the national conference for the valuation of American railroads, started by Senator La Follette, is to mislead the people for their own political profit," Senator Irving L. Lenroot declared in an address here today in which he attacked the valuation plans of La Follette.

"Last spring there was a conference held in Chicago called by Senator La Follette to consider the subject of the valuation of railroads," Senator Lenroot said. "The conference adopted a rule of valuation, was adopted that is in violation of the law, in that the value should be placed at the amount of money prudently invested in the railroads.

At the instance of the leaders of that conference, Mr. Hyatt, the Tammany mayor of New York was selected to stand sponsor for a well laid plan to deceive the public.

"A glance at the personnel of the Chicago conference at once reveals the fact that it was made largely politically by attacking the railroads.

"Major Hyatt is a letter man throughout the country. Just June 9,

the major railroads are contending for a final valuation of 28 billion dollars.

Disinterested railway engineers maintain that the valuation should be based upon actual investment.

And on this basis have reported a valuation not exceeding 13 billion dollars.

"We would always observe that the commission has not finally determined the valuation and there is no reason to believe that when it does do so, the valuation claimed by the railroads will be accepted, but the commission may not follow the rule contended for by Mayor Hyatt and the Chicago conference, with the exception of the law, and Major Hyatt and the leaders of that conference knew that when the conference was held, and are making an absolutely dishonest claim to the public.

Court in Conference.

The United States circuit court, in May of this year, held that the making of the valuation return for the use of the property involves the recognition of its fair value if it be more than its cost. The property is held in private ownership and it is that property and not the original cost of it, of which the owner may not be deprived without due process of law.

"Could language be plainer in direct contradiction of the claim of Major Hyatt and the Chicago conference. If the commission should accept their advice its findings would be set aside by the supreme court and those gentlemen know it. Their purpose, and only purpose, is to mislead the people, for their own political profit."

Senator Lenroot pointed to the first railroad commission of Wisconsin appointed by La Follette. Its first important decision, he said, involved the valuation and internal revenue of the railroads. Milwaukee and St. Paul, the two railroads that case, the senior set out the commissioners adopted as the basis of valuation the cost of reproduction new, "exactly what Major Hyatt and the leaders of the Chicago conference are attacking the Interstate commission," he said. "I have never had Senator La Follette criticize his appointees for making this rule of valuation."

Rule of Operation.

The senator said that present high railroad rates "are not due to the Each-Cummins law, but are due to increased operating costs, at least 70 per cent of which is due to the railroads."

"Railroads owe a duty to the public of honest, efficient management, and the practice of the greatest economy is possible. Let enemies of the roads prove that specific evils exist and there will not be wanting active efforts to remedy them, but the time has come when it should be said, instead that the railroad corporation should not be the footfall of politics."

"The railroads should keep out of politics and the public should see to it that politics does not destroy efficiency of the railroads, which would be a calamity to the farmer, the taxpayer and to all the people of this country. We will serve our country by demanding on the one hand honest, efficient and economical management of the railroads, on the other by defending them against dishonest, vicious attack."

Estates of three prominent Rock county men have been filed in the stock county court for administration.

William C. Weisheit, Beloit, left an estate of \$10,000 real and \$15,000 personal. His will leaves the estate to his widow, Carolyn Weisheit, who it is requested be appointed executor.

The Rev. William Fiske Brown, former pastor of the Presbyterian church, Janesville, who died in Beloit had \$5,000 real estate and \$3,500 personal property. Administration of the estate is asked by a son, Dr. E. B. Brown, Beloit, with the request that he be appointed administrator. There are four sons and one daughter.

An estate of \$58,000 was left by Dennis E. Brown, Edgerton, to his widow, filed in the court. Appointment of the widow as administratrix is asked.

A Reduction in the Tax Rate.

There will be much satisfaction in the presentation of the city budget, details of which were printed in the Gazette Tuesday. That the tax rate could be reduced in the face of a half million dollar reduction in the assessed valuation of the city was not considered possible, but the city government has been able to do it without in any way sacrificing a program of work and improvement which will carry the city through the year 1924.

With the consolidation of offices and official duties, the abolishment of archaic systems and the utilization of the best methods in business administration, the city will be able to make savings here and there heretofore thought impossible or impracticable.

The budget is less than that of a year ago. It shows a reduction of 1.05 in the tax rate. This was thought to be impossible some months ago because the treasury had been bled before the new administration came into office. In spite of the handicaps, by the most careful economy and attention to every detail the city will come through the year 1924 with a most excellent showing. It is also to be noted that we were spared the annual conflict and catch-as-catch can wrestling match between the school board and the council. This has been almost the invariable rule and the council and school board have established a precedent this year in acting in perfect harmony on the budgets submitted. Special pleadings have not been necessary in order to get fairness and justice this year in the budget.

One of the forward steps taken was the acquisition of the Durant property on Main street, adjoining the high school grounds. It would have been a great oversight had the council and the school board failed to avail themselves of this opportunity to provide a recreation grounds and athletic field of so attractive a nature. The property will always be worth more than was paid for it. It will be the campus of the school and there is room for future planning and erection of additional buildings some day when we feel the pressing need for a community center.

Europe is like an old flapper—everything rattles.

Upsetting Calculations.

New Jersey gave a surprise to the wet republicans who had an idea they were in full control of the state convention. Their candidate for chairman, an advocate of modification of the Volstead act, was defeated when it was supposed he had a cinch.

Then out of the five members of the resolutions committee, there were three drys.

So there were no resolutions against the Eighteenth amendment of the Volstead act. The New Jersey republicans find that the women of the state are a factor to be reckoned with. Also in the democratic convention there was a surprise equally disconcerting. Governor Silzer who is boasting the campaign, saw to it that the repeal clause in the platform was made innocuous by substituting a weak demand for modification. In the state and in the party of Governor Edwards, the wettest of all, the democrats were afraid to go the limit. Also they have noted in New York state that Al Smith in issuing a book on the achievements of his administration says nothing whatever about the repeal and his signing of the Mullan-Gage law—not a word about this act which made him the white hope of the wet. The western wet folks will have to look into this act which seems to border on treachery to their ambitions in bringing back booze and beer.

If you will look at the calendar you may be able to figure out how long it will be before we say "It is steam more days to Christmas. Do your shopping early."

The Dead League.

Marshall Philip Brown, professor of international law in Princeton university, says that the Corinthian episode revealed the feebleness of the league of nations and that Europe was not ready to accept the principles for peace which we have insisted upon. "To say that the league deserves any credit for the solution is a curious kind of reasoning," adds the professor, "heretofore a friend of the league. The claim that settlement of the Greek-Italian episode was a triumph for the league is a 'gross distortion of the facts,' is another shot he takes at the irreconcilable leaguers especially in America. 'Our policy of non-participation in the political affairs of Europe would seem to have been fully justified by these events.' And it is not at all hard to agree with him."

Dr. Thorek, surgeon of Chicago, in an address before the Congress of Pathology at Rome, Italy, said that he looked for the day when "further development in surgical science would make it possible to patch up all human maladies by the use of spare parts, just as one did with a motor car." It may be so and when that day comes it will be a good business to open a shop for human accessories.

The Frelinghuysen family of New Jersey, will not be represented in the United States senate when congress convenes. The family has had four United States senators in direct line of descent. It recalls that the Bayards, father, son and grandson, also sat in the senate from Delaware while another New Jersey family, the Stocktons,

Republican Control of Congress

By FREDERIC J. HASKIN.

Washington.—When the sixty-eighth congress convenes in December the republican party will have a paper majority in both branches. The margin of control is not large in either house and there is a group of senators and representatives listed as republicans who may not perform when the party whip is cracked. They hold the balance of power in the senate and in the house, and it remains to be seen, therefore, whether the republican paper majority will be a working majority.

However, as the record stands, the political complexion of the new congress is as follows: Senate—50 republicans, 43 democrats, 2 laborites and 1 vacancy; house—222 republicans, 201 democrats, 1 former-laborite, 1 independent, 1 socialist, 9 vacancies.

The vacancies will all be filled before December and it is expected that the republicans will get one senator and three of the representatives. This would give the G. O. P. a majority of 6 in the senate and 15 in the house.

ON THE SPUR OF THE MOMENT

JUST FOLKS

By EDGAR A. GUEST.

SYMPATHY.
He shall be loved by all who pass his door
Who puts himself into another's place
Tears clearly sorrow's lines upon a face,
Remembers his burden once he bore.
Knows that his neighbor's weight of care is sore
And, moved to pity, with a gentle grace
Forgets his own desires and halts his pace
To give the help he needed years before.
All who have suffered know what suffering
brings.

Pain, hunger, and despair are common woes;
Alike to all come mortal hurts and stings,
Who once has grieved, the act of grieving
knows.

All men have called some time for help, and yet,
Once passed the need, its pain we soon forget.

Medical Research in Dental Hygiene

Altho the teeth consist principally

of calcium (lime) and according to some good authorities on nutrition in this country, notably Prof. Henry C. Sherman of Columbia university, the ordinary mixed diet of American can resident is more often

deficient in calcium than in lime, the amount

of calcium or lime in the diet is not the dominant factor in the calcification of the teeth.

The dominant factor in this important process is the amount of vitamin-A in the diet, according to research conducted by the Mellanby (husband and wife) for the London research council in 1921.

Their work shows that when this particular vitamin is taken in large amounts in the diet, it serves

to retain and incorporate in the body tissues, the teeth particularly, the calcium salts in the diet. The Mellanbys observed this important physiological function of vitamin-A in the course of studies of the calcification of mucus. When vitamin-A was

deficient in the diet, the more calcified were the teeth in dogs.

A diet of oatmeal gave the dogs poor teeth, both dentin and enamel being defective, but when crude (unpurified or unclarified) cod liver oil was added to the diet, the teeth developed normally. Cod liver oil is not "purified" is one of the richest sources

of vitamin-A.

No doubt the herring eaten by the Highlander furnishes enough vitamin-A to save the teeth from the bad effects of oatmeal alone. Milk is taken raw and cream and butter, like the cod liver oil, are good sources of vitamin-A; cheese, additional.

Now the question in my mind is whether the little child is as much in need of having her teeth examined as is the full-grown psychologist who compiled the list of foolish questions.

Judging from the increasing divorce rate a fool and his honey are soon parted.

Who's Who Today

LODGE LEIGH.

"Everything comes from God," is the motto of Lord Leigh of London, and British society is citing this in connection with the latest gift bestowed on him—the heart and hand of young and beautiful Miss Marie Campbell, formerly of New York. The couple are now on their honeymoon.

Lord Leigh, who is sixty-eight, comes of one of the most ancient families in Great Britain. His ancestors were settled in Ireland long before the Conquest. One of them, Sir Piers Leigh, bore the standard of Edward the Black Prince at the Battle of Cracow. A Rugby and Cambridge man, he is a trustee and governor of Rugby and has filled important military and civil posts. Besides his town house in Grosvenor Square, Lord Leigh owns two country residences, Stoneleigh Abbey, Warwickshire, and Adlestrop House, Gloucestershire.

It is plain that Lord Leigh particularly admires American women. His first wife was Miss Alice Gleane, Forbes daughter of the late Hon. N. M. Bockwitz of New York. They wed in 1890. She died nine years later. The heir presumptive to the barony is Rupert William Dudley Leigh, Lord Leigh's nephew.

Q. What will take white wine off an old stain? W. M. Y.

Q. What will take white wine off an old stain? W. M. Y.

A. It is not used because of its spongy, soft character. It can not be worked and has little strength.

Q. Does rain on fruit cause it to spoil? C. C. F.

A. The Department of Agriculture says that the fruit will not usually suffer after a rainy spell because of the fact that rain spreads disease.

The rain which falls on diseased fruit usually carries the germs to the fruit and leaves of the lower branches. Most fungus diseases of fruit trees are promoted by the existence of dampness.

Q. Why are waters of the Pacific cleaner than those of the Atlantic? C. C. F.

A. The fact that the Pacific ocean is less subject to storms than the Atlantic is due to various reasons.

Partly, on account of its great extent and partly because the Pacific is not so open to the Arctic region; the north wind circulation is on the whole less modified in the North Pacific than in the Atlantic.

The trade winds are generally weaker and less persistent in the Pacific than in the Atlantic, and the intervening belt of equatorial calms is greater.

LOOKING BACKWARD

When the cook quits, when guests come without warning, when it is necessary to prepare an attractive meal in a hurry, what do you do?

The quickest and easiest thing is to draw on your supply of canned goods, which require little preparation and very little work; you can serve an appetizing meal in a very short time.

If you want this knowledge, it is yours for the asking. Domestic science experts have gathered a collection of 200 recipes for preparing unusual and palatable dishes from canned foods, ranging from soups to desserts. These recipes have been carefully worked out and tested.

Racine, Victorious in 1922, Faces Blues Here, Saturday

Busy Man's Sport Page

By FRANK SINCLAIR

Brooklyn, N. Y.—(By Mail)—On the outside hearing the din is a new and interesting experience for the writer. Last Saturday, brother-in-law, Jim, suggested taking in the Army-Navy game at Madison. At first he was a little nervous about the idea, but this time, he was just plain Mr. Citizen, destined to taste what Mr. Van Sutters in New York, having no thought when I left Janesville of seeing any sports event I didn't even have the usual business card with me. It was like that, but with much the slighter suspense, and not for the gate 100 yards down through thousands of eager, hoping Metropolitans.

THE JOKE is on us and, its funny. Four hours we sat there with a sight-seeing, "Stand-in-Rite," so off on the horizon. Our fellow "incomers" were 10 abreast and losing a pound a minute from anxiety. Scalpers were busy getting rid of tickets at \$10 for seats, none too good. The police officers should have called a cop, so everyone they had passed was wearing a gang that already knew how to do that. We moved up—moved because we deployed from two abreast to 10. On we edged until that desired door came in sight. We had our money ready until it became a misnomer.

Racine Has Five Vets.

Racine will invade Janesville Saturday with the same team that trounced Milwaukee Riverdale last week to the tune of 20 to 0 last night, and which appears to be formidable an enough as has represented the Belle city in years. Racine's lineup contains the names of five veterans who played against Janesville last year—Thomas, tackle; Johnson, guard; Meyer and Lubovitski, halfbacks; and Breckenfeld, fullback. Breckenfeld played last fall.

It was largely Lubovitski who paved the way to Janesville last year. He is deemed to be a great open field runner, slippery as an eel.

Will the Blues can stop him they will have a good chance of annexing their third straight victory. Rose, Racine's quarterback, is considered a dangerous man, is a good passer and carries the ball well.

Janesville Drills Hard.

Gibson is drilling his men until darkness every night this week in the hope of continuing the team's winning streak by a victory over Racine. It will be the first time in many years that Racine has appeared on a local gridiron and Janesville is hopeful of making their visit a memorable one.

Scrimmaging was held Tuesday night with the first squad driving through the second team with apparent ease. Drill on a water-soaked field was discontinued because of the rain. Scrimmaging will probably be held again Thursday with signal practice on Friday, the eve of the game.

William T. Tilden II, tennis champion, has gone into the movies, it was learned at San Francisco Tuesday.

Stew Williamson, Minnesota quarterback, is out for the rest of the season with a wrenched back sustained in the game with the Haskell Indians.

Rain again kept the Baltimore Orioles and Kansas City Blues idle Tuesday, preventing them from playing their third game and their 10th to Baltimore to finish up the minor league series.

Young Stribling, Georgian, will box Steven Choyinski of Milwaukee in Chicago—The White Sox again

are Chicago city champions, beating the National League Cubs, 4 to 3, in 10 innings on Tuesday. The Americans won the series, four games to two.

Two fumbles and a wild throw by George Grantham, gave the Sox the championship. The first fumble came in the ninth inning, in which the Sox scored twice and knocked the count, while the second fumble and wild peg came in the tenth and allowed the Sox winning run to be scored.

It was the eighth city championship the Sox have won from the Cubs who earn the title three times. The National leaguers won their last title last year, the first time in 13 years.

Tony Kaufman hustled the route in the final game for the Cubs. Jim Farber, Ted Lyons and Gorham Leverette played for the Sox.

New York—Early birds—not the variety that get up to gobble worms, but those who sit along the rails at dawn and "clock" the thoroughbreds in the racetracks—got up early this morning on Papyrus, champion English three year old, when the Derby winner faces the barrier Saturday at Belmont Park with Zev, his American rival, in the \$100,000 gallop of a mile and a half.

The "clockers," however, weren't as much interested in an affectionate meeting with human and beast as they did in the variety of birds that were not normally inclined, but today, they were keenly anticipating a reunion between horse and man.

Steve Donoghue, best of English jockeys, stepped ashore late yesterday from the Olympic on his international errand. He'll be back in time for the Derby, Saturday, June 20.
